Connecting Schools with the Best Healthcare Staffing

Educational Services

Judge Healthcare's expert Educational Services team provides access to a comprehensive network of highly qualified, credentialed healthcare professionals who understand regulations, school codes, and the unique needs of your school district's student body.

Providing Specialized Care to Your Students

With decades of healthcare and medical experience, our recruiting specialists understand the challenges you're up against. They possess the knowledge – and the talent network – to overcome your most complex staffing problems in a timely manner.

Nursing

From checking temperatures to educating students on healthy eating habits, our qualified and reliable school-credentialed nursing professionals (RNs/LPNs/LVNs) create a safe environment for students, allowing them to achieve academic success while providing peace of mind to their parents and guardians.

Therapy

All students should be able to recover or develop the skills needed for daily living and participating in school activities. Our Occupational and Physical Therapists work with students to assess their abilities and limitations and develop customized plans to enable them to complete daily tasks.

Assistants & Aides

Our Paraeducators and Health Instructional Aides work under the supervision of licensed teachers to assist in the education of students with disabilities or other specialized needs. We also provide Medical Assistants and CNAs who can provide basic medical care and first aid and assist in managing health and wellness programs.

Speech & Language

When it comes to assessing, diagnosing, and treating speech, language, communication, and swallowing disorders, Judge's Speech-Language Pathologists provide therapy sessions to help students develop communication skills and overcome communication disorders.

Mental & Behavioral Health

Our School Psychologists and Counselors address students' academic, social-emotional, and behavioral needs, helping to create a positive and inclusive school environment.

Temperature & Medical Screeners

Prevent the spread of illness in your schools with our temperature and medical screeners who help ensure the health and safety of students and faculty by identifying individuals who may have a fever or other symptoms that could be indicative of illness.
