

Infrastructure & Wireless Solutions: Connecting Your Business

Elevate your business with cutting-edge infrastructure & wireless solutions

To support your company's operations without interruption, you need wireless solutions that are up to the task. The Judge Group elevates companies like yours with end-to-end physical and wireless infrastructure solutions designed for connectivity and security.

WHY CHOOSE JUDGE?

- **Versatile Technology Integration:** Whether enhancing your current systems or seeking the finest solutions tailored to your requirements, our technology-neutral stance guarantees a perfect fit for your business.
- **Comprehensive Project Support:** From budget planning to operational execution, we provide exhaustive support across all phases of your infrastructure endeavors.
- **Dedicated Wireless Specialists:** Our team of seasoned wireless engineers, devoted exclusively to wireless technologies, ensures you receive expert attention and solutions.
- **Certified Excellence:** With credentials that meet the highest industry standards, we bring a level of accredited expertise to your projects that is second to none.
- **Proven Deployment Mastery:** Our rich history includes successfully navigating complex, large-scale installations, such as a sprawling 6 million+ square foot campus for a top-tier pharmaceutical giant.
- **Expert Network Access:** Tap into our extensive network of certified professionals, equipped with the necessary tools and equipment, to deliver efficient and effective project completion.
- **Strategic Industry Alliances:** Benefit from our strong partnerships with leading wireless providers, giving you access to cutting-edge solutions and services.
- **Assured Coverage Validation:** Post-implementation, we conduct thorough coverage assessments to ensure your wireless solutions meet and exceed expectations.

ADVANTAGES FOR YOUR BUSINESS

- **Fortified Security:** Our advanced infrastructure is designed to fortify your company's defenses, safeguarding your invaluable pharmaceutical data against emerging threats.
- **Streamlined Management:** Experience seamless management and enhanced interoperability, simplifying complex systems for optimal performance.
- **Dynamic Scalability:** Adapt effortlessly to market changes with infrastructure that scales with your business, ensuring you're prepared for any growth trajectory.
- **Operational Excellence:** Transition to our state-of-the-art solutions to boost operational efficiency, driving productivity to new heights.
- **Boundless Connectivity:** Embrace a wireless network that transcends borders, empowering your global ambitions and supporting your digital expansion worldwide.
- **Innovative Leadership:** Stay at the forefront of the pharmaceutical industry by integrating the latest in AI, machine learning, and IoT, propelling your company to new innovative heights and sharpening your competitive edge.

INFRASTRUCTURE AND WIRELESS TALENT SOLUTIONS

Whether you are looking to hire contract support or a permanent resource, Judge – one of the largest IT staffing firms in the U.S. – can help you find top talent in specialized infrastructure roles, including:

- Network Engineers
- IT Project Managers
- VoIP/Telecommunications Engineers
- Help Desk Specialists
- Systems Administrators
- Network Operations Center (NOC) Specialists

INFRASTRUCTURE AND WIRELESS LEARNING & DEVELOPMENT SOLUTIONS

Judge's infrastructure, network, and wireless training portfolio can enable your team to meet industry-recognized certifications, learn product-specific skills, and fill gaps in your wireless knowledge base. We can provide your team with the training they need to be successful in the following areas:

- Amazon Web Services
- Azure
- Cisco
- Citrix
- Microsoft
- Network Functions Virtualization (NFV)
- Network Transformation
- Software-Defined Networking (SDN)
- Storage Area Network (SAN)
- USB 3.0
- VMware
- Wireshark
- Long Term Evolution (LTE)
- IoT
- Certified Cloud Security Professional (CCSP)
- Certified Information Systems Security Professional (CISSP)

INFRASTRUCTURE AND WIRELESS PARTNERS

Working with Judge means you have access to our wide network of trusted partners, many of which are industry leaders. Our infrastructure and wireless partners include, but are not limited to:

- Cisco
- HPE Aruba Networking
- Fortinet
- Juniper Networks
- ConnectWise

AREAS WHERE WE SPECIALIZE

- **Predictive Modeling (Software-based):** Remote access point modeling and RF coverage prediction regardless of site completion
- **Wireless Site Survey (Greenfield Assessment/Design):** Onsite and remote RF access survey for appropriate wireless access point placement
- **Managed Deployment/Ongoing Support:** Lifecycle management of wireless migrations, oversight of cable installation/network service providers for proper installation and configuration
- **Post Installation Site Survey:** Onsite and remote newly installed wireless network performance assessment
- **Wireless Coverage Assessment & Configuration Review:** Performance testing of existing network, remediation recommendations, and WLAN controller configuration
- **Remediation Planning & Execution:** Review of Coverage Assessment outcome to determine wireless needs, implementation and execution of correction plan
